 - 5.2.3. The User acknowledges that any actions in the client section of the Website may have legal effects such as entering into, changes in or termination of contractual relationship between the User and any of the EUROWAG Companies. - 6.2. The Agent shall make the current amount of Service purchase limits available to the User in the client section of the Website. The Agent shall be authorized to unilaterally change the sums of such limits in justified cases (e.g. unsatisfactory payment history of the User, decrease of the collateral securing of debts or the User's request), provided that the User shall be notified of any such change. Such change shall not require an amendment of the Agreement.

Upon the Provider's call, the User shall cover the costs (including any advance payments) incurred by the Provider in connection with the aforementioned.
- 11.6. The User shall be obliged to promptly provide the Provider with complete and true information regarding the processed personal data and changes thereto, as well as to promptly inform the Provider if it is revealed that the information previously provided by the User has proved to be incomplete, inaccurate or untrue.
- 11.7. The User shall be obliged to notify the Provider of any breach or imminent breach of the PDP Regulations regarding the processed personal data, whether by the User, by the Provider or by any third party, without delay, no later than the next working day from the moment when the User ascertains such breach or imminent breach.
- 11.8. In connection with the processing of personal data by the Provider for the User, the User also declares that:
 - (i) the User is a personal data controller in accordance with the relevant provisions of the PDP Regulations and that it has met all obligations under the PDP Regulations, including, where applicable, the registration obligation in relation to public authorities;
 - (ii) the personal data is obtained and processed by the User in accordance with the PDP Regulations, is accurate, corresponds to the intended purpose and has the extent necessary for its fulfilment;
 - (iii) the User is entitled to entrust the Provider with the processing of personal data for the purpose of providing Services and to the extent required for this, as well as for the period of time under the applicable STC.
- 11.9. Taking into account the state of the technical equipment, the costs of execution, the nature, scope, context and purposes of processing, as well as the differently probable and differently significant risks to the rights and freedoms of natural persons, the Provider, with the User's assistance, shall take appropriate technical and organizational measures to ensure a level of security corresponding to the given risk, taking into consideration in its assessment, in particular, the risks involved in processing, in particular accidental or unlawful destruction, loss, modification, unauthorized disclosure of transmitted, stored or otherwise processed personal data, as well as unauthorized access to such data.
- 11.10. The Provider undertakes to take such measures to ensure that any natural person acting under the Provider's authorization and having access to personal data processes such personal data only to the extent of the User's instructions, unless the processing of such personal data is imposed on such a natural person by the applicable legal regulations.
- 11.11. The processing of personal data by any other person in the role of processor may be a necessary prerequisite for the provision of the relevant Service. The applicable STC may lay down other processors used for this purpose by the Provider. The role of personal data processor may also be assumed by other of the EUROWAG Companies. By using any of the Services the provision of which requires processing of personal data for the User, the User expresses its consent to the Provider's use of any other of the EUROWAG Companies or, as the case may be, other processors specified in the applicable STC, for the relevant processing of personal data unless, immediately (no later than the following working day) after the first use of the Service, it raises a written and justified objection to the involvement of the particular EUROWAG Company or, as the case may be, other processors specified in the applicable STC, in the processing of the personal data for the User. In the event of any changes concerning other processors (due to any changes in the Company List or changes concerning the persons listed in the STC), the User has the right to raise a written and justified objection to the involvement of a certain new EUROWAG Company or, as the case may be, other processors newly specified in the applicable STC, in the processing of the personal data for the User, within 7 working days from the

date when it had an objective opportunity to become acquainted with the change and, if the User fails to express its opinion, it shall apply that the User agrees with the change concerning the persons acting as Providers. Raising objections to any person in the position of other processor may be a reason to suspend the provision of the relevant Service.

- 11.12. The Provider undertakes to ensure that another processor used, if any, must comply with fundamentally the same contractual obligations to protect personal data as those implied by this Agreement and by the PDP Regulations, in particular the provision of sufficient guarantees with regard to the introduction of appropriate technical and organizational measures. The Provider shall be liable to the User for meeting other processor's obligations to protect personal data.
