

# About the amount of the toll

The toll rate is determined in accordance with the requirements of the European Union (as per NFM decree 25/2013. (V. 31.) on the toll rate and toll roads), based on the road type, the vehicle category (J2, J3, J4) and the environmental (emission) classification. Based on the table below, you can check the category of your vehicle based on the number of axles.

## Categories

J2 category	Heavy goods vehicle with a total weight over 3.5 tons with <b>two axles</b>
J3 category	Heavy goods vehicle with a total weight over 3.5 tons with <b>three axles</b>
J4 category	Heavy goods vehicle with a total weight over 3.5 tons with <b>four or more axles</b>

## Gross price of road use (HUF / km)

	Vehicle category	J2 category		J3 category		J4 category	
	Road category	Expressway	Main road	Expressway	Main road	Expressway	Main road
Emission class	<b>A ≥ EURO V</b>	50.63	21.53	71.03	37.29	109.95	68.58
	<b>B = EURO II - EURO IV</b>	59.56	25.33	83.56	43.87	129.35	80.68
	<b>C ≤ EURO I</b>	68.49	29.13	96.09	50.45	155.22	96.82

Pursuant to Decree 25/2013 (V. 31.) NFM. Valid from 01.01.2021.

## Emission classes

“Differentiating factors for toll calculation per EURO emission class:

	A	B	C
1	Emission class	Vehicle categories J2-J3	Vehicle category J4
2	Category A	0.85	0.85
3	Category B	1.0	1.0
4	Category C	1.15	1.2

Pursuant to Annex 1 to Government Decree 209/2013 (VI. 18.).
